

Sofia Martinez

Full Stack Developer

New York, NY | (646) 555-0141 | sofia.martinez.fullstack@example.com | linkedin.com/in/sofia-martinez-fullstack

PROFESSIONAL SUMMARY

Full Stack Developer with 6 years building customer-facing SaaS features across React, Next.js, Node.js, and PostgreSQL. Strong at translating product requirements into reliable end-to-end flows that improve activation, admin efficiency, and release quality.

EXPERIENCE

Full Stack Developer

04/2022 - Present, New York, NY

LoopHQ

- Launched a multi-step onboarding wizard across frontend and backend services, increasing activation by 16%
- Redesigned analytics APIs and dashboard queries, reducing admin load times by 45% for operations users
- Implemented role-based permissions and audit logging across the app, improving enterprise readiness and reducing manual access requests

Software Developer

07/2019 - 03/2022, Remote

CivicFlow

- Built a self-serve billing portal that reduced support tickets tied to invoices and payment updates by 24%
- Connected a CMS-driven content workflow to Next.js landing pages, cutting campaign publishing time from days to hours
- Added Cypress smoke coverage to critical flows, reducing production regressions during weekly releases by 38%

EDUCATION

B.S. in Computer Science

05/2019

Northeastern University

- Coursework: Web Development, Database Systems, Human-Computer Interaction

SKILLS

React, Next.js, Node.js, TypeScript, PostgreSQL, GraphQL, Prisma, REST APIs, Cypress, Tailwind CSS, AWS, analytics instrumentation, admin tooling.

CERTIFICATIONS

- AWS Cloud Practitioner, 2024
- Internal admin tooling project adopted by more than 120 support and operations users
