

Daniel Kim

Software Engineer

San Francisco, CA | (415) 555-0186 | daniel.kim.software@example.com | linkedin.com/in/daniel-kim-software

PROFESSIONAL SUMMARY

Software Engineer with 7 years building multi-tenant SaaS products in TypeScript and Node.js. Strong record of shipping reliable backend systems, improving developer velocity, and translating technical decisions into measurable product outcomes across billing, activation, and platform workflows.

EXPERIENCE

Senior Software Engineer

02/2023 - Present, San Francisco, CA

AtlasCloud

- Owned a feature-flagged release workflow across 14 services, reducing launch-related production incidents by 34%
- Re-architected the billing event pipeline, cutting invoice failures by 41% and support escalations by 26%
- Instrumented activation funnel events with product and analytics partners, contributing to an 11% lift in trial activation

Software Engineer

07/2020 - 01/2023, Remote

Northstar Health

- Reduced p95 API latency by 190ms across high-traffic endpoints serving more than 2M monthly requests
- Introduced contract testing and API schema validation in CI, lowering breaking integration regressions by 46%
- Built an internal scaffolding CLI and deployment checks that saved roughly 20 engineering hours per sprint

EDUCATION

B.S. in Computer Science

05/2020

University of Illinois Urbana-Champaign

- Coursework: Distributed Systems, Database Systems, Operating Systems

SKILLS

TypeScript, Node.js, PostgreSQL, AWS, System Design, Observability, Kafka, Redis, GraphQL, GitHub Actions, Docker, Terraform, testing strategy, incident response.

CERTIFICATIONS

- AWS Certified Developer - Associate, 2025
- Google Cloud Professional Cloud Developer - in progress
